CAREER OBJECTIVE

I don't just learn technology—I build with it. Focused on AI engineering and full-stack development, I turn ambitious ideas into production-ready products that solve real-world problems and create measurable impact.

EDUCATION

CMR Technical Campus

B.Tech, Computer Science (AI&ML)

[CMR TECHNICAL CAMPUS]— Hyderabad,Telangana

Hyderabad, Telangana, India

2025 – Present

Programming Languages : C,SQL,Python, JavaScript,

Backend : Node.js, Express.js

Database : Firebase, SupaBase

Frontend : React, Next.js, HTML5, CSS3, Bootstrap, Javascript

AI : OpenAI API, Gemini API, Prompt Engineering

Tools : Github, VS Code, Vercel, Railway, npm, Claude Code, Android Studio,

EXPERIENCE

Software Developer / Product Developer — TeamFAB 2026 | Hyderabad, India

- Designed and developed real-world software solutions including an intelligent emergency-response platform and a college-focused leave management system.
- Built an smart leaving permission system for my college.
- Worked across product planning, frontend development, UI/UX design, database integration, testing, and AI-assisted development.
- Collaborated on system architecture, user workflows, product presentation, and interactive demonstrations.

Tech Member — IDEA GENESIS CLUB CMR TECHNICAL CAMPUS – Present | Hyderabad,

IndiaContribute to technical implementation, problem-solving, and development-related activities

HACKATHON AND IDEATHONS

🏆 3RD PLACE — IDEATHON 2K26

- SECURED 3RD PLACE OVERALL AMONG 60+ TEAMS AT IDEATHON 2K26.
- COLLABORATED AS A MEMBER OF TEAM DEVELOPERS TO DEVELOP AND PRESENT AN INNOVATIVE TECHNOLOGY SOLUTION
- RECOGNIZED FOR INNOVATION, TEAMWORK, CREATIVITY, AND PRACTICAL PROBLEM-SOLVING.

BUILD WITH GEMMA HACKATHON | 8-HOUR HACKATHON | 2026

- COLLABORATED WITH A TEAM TO BUILD HYDRA OS, AN AI-POWERED SMART CITY ASSISTANT USING GOOGLE GEMMA
- DEVELOPED AND INTEGRATED CONCEPTS INCLUDING AI CHAT, COMPUTER VISION, CITY HAZARD REPORTING, INTERACTIVE MAPS, AND A CITIZEN DASHBOARD.
- BUILT AND ITERATED ON A FUNCTIONAL PROTOTYPE UNDER A STRICT 8-HOUR DEVELOPMENT TIMELINE

GENESIS VENTURE CHALLENGE — CMR Technical Campus, Hyderabad

TeamFAB | Project Presenter 🏆 4th Place

- Developed and presented LIFE ROUTE, an emergency-response technology concept addressing ambulance delays at railway crossings.
 - Focused on converting a real-world transportation and emergency-management problem into an interactive technology prototype.
-

soft skills

- Problem Solving
- Team Collaboration
- Communication
- Presentation
- Product Thinking
- Creative Thinking
